BEHAVIOR, THURSDAY, DEC. 4  
CANADIAN TWO-ROWED BARLEY  
ALL RIGHT.

The item which announced the sample of Canadian barley shown at the English exhibition, has sent the reader to the effect that the higher grade of samples, and that the lower grade of samples, are the same as the Canadian barley of that class.

The foregoing is taken from the new columns of the Globe of Nov. 29th. What the editorial positioner has done is to state that the Canadian barley is the same as the English barley, to say the least? Canada rises superior to her detractors every time!

## GRIT BAILIFFS.

NEW CONSERVATIVE BAILIFFS ARE RANGING OUT OF OFFICE AND DEPARTING BY THE NEW-ORLEANS BAILIFFS CAN EXCEED THE LAW.

A lively time is being experienced in Trenton over the displacement of Bailiff Crutcher and the appointment of Mr. W. H. Garret in his place. Mr. Crutcher has been Bailiff for many years and is highly respected, he having filled the office with satisfaction to all parties, and he has committed the unpardonable sin, in the eyes of the Mowat Government, of voting for the Conservative candidate at the election. So the policy of the Mowat Government must be carried out, and the Bailiff Crutcher must go. As no fact could be found against Mr. Crutcher in his official capacity, the Inspector was sent to Trenton, with a plausible story, he persuaded Mr. Crutcher to resign, with the distinct understanding that he should be as one appointed by the present Government. The representation of the Inspector were believed and Crutcher resigned. Mr. W. H. Garret was appointed in his stead. When it is known that Crutcher was an applicant for the License Inspectorship, it will be understood that his resignation was purchased by the promise of another office, and a considerable sum was paid for the purpose of providing an office for him.

To the credit of the Reformers in Trenton, be it said that they are up in arms against such a disgraceful mode of disposing of an old and reliable public officer. Looking at the other side of the picture we find that complaints are being made after complaints are being made that Mr. Crutcher has been paid to the complaint, until the election being past, a few days since the Inspector came here to look into the matter. But Peter is a party, whose wife will doubtless be condoned for the sake of the party of purity.

## FIGURES THAT TALK.

The following important statement is furnished by the Ottawa correspondent of the Empire, under date Nov. 27th.

The totals of Canadian trade for the fiscal year ending June 30 last were to day handed to the Minister of Customs by Mr. Barry, chief of the statistical branch. As a rule, are considered dry. People do not care to see them in print, but there is a Canadian who wishes to see them, and progress and prosperity but will be delighted with the following figures of Canada's increasing trade. Only to our mind, possibly, and that man, Sir Richard Cartwright, has been the "man of the hour" of figures, "will they be unpalatable; but I fight with them as he may in his speeches in the House of Commons, and in their own story. First in regard to the imports. The total imports were as follows:

One of the men, being an enormous fellow, evidently outside the age, has a proprietary rights in the moose. paper at the Egg Case Company, and he was with him a sample of the new kind of case which his company is making for egg exporters. The great feature about the box is its strength, any amount of ordinary handling not being likely to affect it. The interior of the box is of cardboard, and the box being capable of handling 30 dozen each egg having a separate compartment. Mr. Dowell was greatly pleased with the invention.

There has been such a heavy snowstorm in England that railway traffic is seriously impeded.

Further Gentilizing Reports as to Shipment to Ireland.

MONTREAL, Nov. 27.—The Canadian hen still continues to defiantly cackle and the Dominion Government backs her up every time. Mr. Geo. Wait, of Geo. Wait & Co., has just written Hon. Mackenzie Bowell,

factor of the boom, the latest results will be interpreted by the firm in a more propitious light than in the case of the corresponding figures from the previous year. But British shipbuilders have been exceedingly lucky in the timing of the boom. In England 900 cases have been exported since the 22nd November, and in Scotland 1,000 cases have been shipped. The latter figure is a record for more than a hundred trial shipments. The character of the Canadian cargo appears to be similar to that of the American, and on the market that takes such odd messages for quotation, replies to the same and to other staple products, are now of daily occurrence. The export of Montreal 22s 6d has been the most popular. The latest shipments will not do the honor to Montreal 22s 6d cents per ton, but will do it for Montreal 22s 6d cents per ton, the total amount received for Bat & Co.'s shipments, between the two dates referred to, being \$1,000,000.

"What are eggs worth to trade in Boston?" asked the *Empire*.

"The eggs," replied the Montreal dealer, "would bring 20 cents in that market, and now deduct five cents for port charges, and you have 15 cents left. The dealer must for freight and taxes pay for commission and shrinkage; thus you get 10 cents for the eggs, and the dealer gets 5 cents from the customer a net return of 2 1/2 cents from the British, or a difference in the value of the new duty of very nearly 5c. Montreal exporters expect to receive a further 5c. for the eggs, and thus to bring up to the middle of January, as Londoners are being misled by large local agents, the Montreal dealers will have their regularly estimated gains before spring, *Empire*.

**The Fishery Season.**

OTTAWA, Nov. 26.—Commander Gordon R. N., Commander of the Fisheries Protection Fleet, returned to Ottawa to-day after a successful season on the coast. He says the season has not been eventful, the capture of the American vessel "Davy Crockett" being the only noteworthy incident. The case is still in the Admiralty Court, the vessel having been seized on suspicion of smuggling.

The master of the "Davy Crockett" was very apy, trying to evade detection by keeping the vessel in the bank of the river, and inside the three-mile limit. The Bank fisheries closed this year. The "Davy Crockett" was a small vessel, and though cod was not so good, the mackerel was of good quality and the prices good.

He said that mackerel came in this season to the shore of Nova Scotia, about Yarmouth and St. Mary's Bay, in the month of August, and was plentiful for several years past. This, Commander Gordon thinks, shows the value of the precaution taken by the Government to close the fishery for more than ever of the vessel which, Mr. Gordon has been collecting about \$100,000 worth of fish in the last year.

The local fishermen do not care much

**A Committee of the Nationalist Party Interview Gladstone and He Gives Satis-**

LONDON, Dec. 5.—Messrs. Healy, Redmond, Sexton and Leamy, who were entrusted with the negotiations with Mr. Gladstone, drove to the residence of the Liberal leader at 12½ to-day. Ten minutes before the meeting took place, the

before the arrival of the delegation Mr. Morley, Sir William Vernon Harcourt, Earl Spencer and Earl Granville, who had been conferring with Mr. Gladstone, took their departure. The conference between the committee and Mr. Gladstone lasted an hour, and on its conclusion the delegates returned to the room in the House of Commons in which the proceedings of the Nationalists

Mr. Gladstone gave the Irish delegates a cordial reception. He acted throughout with the full approval of his colleagues. He discussed the whole position of the Liberals, the present political situation and the probable effect of Parnell's retention of the Irish leadership on the Liberal party.

ence and when it was over he remained in consultation with Mr. Gladstone. Subsequently he told reporters Mr. Gladstone did not intend to publish anything regarding the meeting. The delegates were also reluctant to give the particulars of the interview, which they regarded as strictly confidential.

**Anti-Parnellites Satisfied.**

Members Healy and Berton, the anti-Parnell members of the delegation, are satisfied with the result of the interview with Gladstone. The Liberal leader gave no definite promise regarding the points submitted, but he said sufficient in their opinion to justify the majority of the Irish party in considering his assurances satisfactory.

Mr. Gladstone, in an election letter, writes that it is not the duty of the Liberal party to hit Ireland on the left cheek because she has been hit on the right by the conduct of the leader whom she deposes.

Cardinal Manning, in which he says his opinion is admirably expressed by the manifesto issued by the Irish hierarchy, which he believes will gain in influence, because it took due time to consider the question before issuing the manifesto. He agreed entirely with the views it expressed, both politically and orally, but Farnell's reticence should be made compulsory on those of more

grounds, politics being a secondary consideration.
